

2014 Lights of Distinction Nomination Form

The Lights of Distinction Program was created by the Citizen's Community Enhancement Commission in 2009 as a way of recognizing residents and businesses throughout the City of DeKalb whose holiday decorations are considered exceptional by other community members. The extra time, energy and money spent on making their properties shine, and the imaginative touches they bring to their landscaping not only enhance the value of the properties around them, but also support a positive image of the City.

Nominees will be recognized for their holiday exhibit on display in December. Any citizen can nominate a resident or business for the Lights of Distinction program. Simply fill out this form and attach two colored pictures of the display to the application. Nominators are advised to take photos of light displays at dusk, when the lights are on but it is not yet completely dark.
